IIIF: International standard to describe and deliver images online

WORKSHOP MED PATRIK GRANHOLM, KB

IIIF: International Image Interoperability Framework offers standardized methods (API's) to describe and deliver editable images online with a stable URI, that are possible to annotate, and also can be collated from different collections.

During the workshop the participants work with own material and test implementation of IIIF.

24 maj 1430-1730

Workshop, coffee and concluding dinner.
Københavns Universitet, Institut for Nordiske Studier og Sprogvidenskab, Building 27, 2nd floor, Salen

Registration: no later than 10th May to textvid@ht.lu.se.

Limited number of participants. With registration, describe what you would like to work with/try out.

The event is organized by Textvid Øresund and Lund University Humanities Lab
